| 9. | 825 | Next meeting date Oct 27 | |
| 10. | 830 | Adjourn | |

Updates / Reminders for Upcoming Events:

[10/4 Wolbach Farm Opening All-Persons Trail opening celebration³](#)

¹ The best time to start breeding Galerucella beetles for purple loosestrife control is in early spring (April to May) when overwintering adult beetles emerge and host plants begin to sprout.

² Sunny Subcommittee (prior to funds sunset): Andrew, Ron, Tom, Carlene, Jonathan.

³ Thanks to the River Stewardship Council's generous support, the All Person's Trail at Wolbach Farm is now open! We will be hosting a grand opening celebration on October 4th from 8 to 11am, and we would love it if you or someone from the Council wanted to join us to visit the trail and celebrate. The program includes a sensory friendly hour from 8-9am followed by music, birding, forest bathing, storytime for kids, and self-guided trail activities.
